To whomsoever concerned ,

Dear Sir,

Subject: Application to the UNESCO Creative Cities Network,
On Gastronomy

Our Province, Adana in Turkey is one of the world's leading cities in Gastronomy. The Province's ancient history of Gastronomy and the reflection of this is seen in the every day colourful city life of the people.

At this point, the Metropolitan Municipality of Adana would like to send our application for the consideration of the UNESCO Creative Cities Network, Which reflects the way of Cultural, Historical and Gastronomical history based on the national and international perspective. This will create many possibilities and all round development of our province.

We, as the Seyhan Municipality of Adana, have the potential and the power to support the initiative undertaken by the Metropolitan Municipality of Adana . We look forward for a positive reply from UNESCO Creativte Cities Network 2019, with this regard and wish you the best of luck.

Rev. Fr. FRANCIS DONDU
